

American Junior Hampshire Sheep Association

Hampshire Showdown

The American Hampshire Sheep Association is one of the largest registered sheep associations in the country with a large following of junior sheep exhibitors. In an attempt to grow our breed and offer additional opportunities for our junior members, we are starting an annual junior show for youth up to 21 from all over the country to come together for development in knowledge, leadership, and showmanship, as well as to showcase their registered stock and interact with other youth with a common passion. Your support would allow us to offer more opportunities to grow those developmental areas and support those youth engaged in the livestock industry. We thank you for your consideration to help grow these future leaders!
