My name is Adam Everhart and I'm asking to continue my role as the District 6 Representative . My wife (Adair), daughters (Sallie and Samantha), and myself make up Everhart Livestock. We have been raising Simmental cattle for the last 18 years as the 3rd and now 4th generation of Simmi breeders. We started our sheep journey like many others in the 4-H program. Which is the reason we decided to start our girls early in showing lambs. After a few shows, it was decided to develop a flock that would produce high quality eye appealing females that can do their jobs in a pasture setting. With our years of raising cattle that have been shown and sold across the country we have adapted our good and bad experiences to help grow our sheep program. It's those types of experiences that will help me make recommendations and suggestions to help guide our association into new areas of our ever-changing livestock environment. In addition, we were both exposed to unique leadership growth opportunities during our time as Juniors. Which is why it has been a goal of mine to help build a self sufficient Junior program that can do that with our Hamp kids. It has been very rewarding the last several years to see how the Jr program has changed. Our Jr Board kids have grown and developed new life skills while hosting multiple online sales and 3 consecutive years of The Hampshire Showdown that has attracted exhibitors from across the country. In addition before the Showdown show they've also provided opportunities for contestants to compete in a judging contest, sales talk, and a herdsman type quiz to help provide more leadership growth for all our Jrs. I appreciate and THANK YOU for the support as we plan to continue assisting the building of both the Association and our Jr program unlike any other in our industry.
